SKILLS

HTML5

CSS3

JavaScript

Tailwind CSS

Bootstrap

jQuery

React JS

MySQL

Django

Python

Adobe InDesign

LANGUAGES

English

Professional Working Proficiency

Tamil

Native or Bilingual Proficiency

Hindi

Professional Working Proficiency

SOFT SKILL

Positive Thinker

Patience and Empathy

Problem Solving Skills

EDUCATION

Bachelor of Engineering in Computer Science

A.K.T Memorial College Of Engineering and Technology

07/2019 - 05/2023

kallakurichi, Tamilnadu , 8.03 CGPA

WORK EXPERIENCE

Web Developer

iZet e-Payments Private Limited

01/2024 - Present

Nava India , Coimbatore

Achievements/Tasks

- Created a portfolio website and mastered the Django framework with MySQL integration.
- Proficient in using key technologies such as **HTML, CSS, JavaScript, React, Tailwind CSS, Django, and MySQL** to develop and implement dynamic web applications within a company setting, resulting in improved user experiences and system performance.

Junior Front-End Web Developer Trainee (Internship - 5 Months)

State Street IT, TICEL Bio Park.

08/2023 - 12/2023

Coimbatore

Tasks

- W3Schools (Education Website)
- Ensuring web design is optimized for smartphones. Developing features to enhance the user experience . Incorporated Git for version control, allowing for easy collaboration and project tracking.
- GitHub Link : [🔗](#)
- Meesho (E-Commerce Website)
- Proficient in responsive web design and cross-browser compatibility, ensuring a seamless experience across various devices.
- GitHub Link : [🔗](#)

CERTIFICATES

ICT Academy - Information and Communications Technology (03/2023 - Present)

Project on Predicting the energy output of wind turbine based on weather condition. Powered by IBM Developer Skills Network.

I participated in the Connection Symposium event and won the 2nd prize at Salem College of Engineering and Technology. (11/2022 - Present)

COLLEGE PROJECTS

Project Title: Machine Learning for Autism Spectrum Disorder Prediction. (02/2023 - 05/2023)

- Detecting autism traits through screening tests is very expensive and time-consuming. However, with the advancements in artificial intelligence and machine learning (ML), it is possible to predict autism at an early stage.
